Hands-on to Bite-sized Learning of Copilot for M365

Curricula's bite sized learning topics allow learning allows individuals to explore and apply the tools and features of Copilot for M365 in various M365 applications. Train-the-trainer courses are also available to comprehensively equip your Copilot champions.

Upskill & Drive Successful Copilot Adoption

True adoption is a function of familiarity. Curricula's learning paths offer a way to hand-pick and deliver lessons from our extensive content catalog to focus on the skills you need for any project, team, or role. Curricula enable you to systematically track your team's training outcomes in a Copilot rollout.

Train Together, Grow Together

Take training beyond one-off live sessions or trying to 'bring the horse to water' with individual online content. With Curricula's interactive Learning Communities in Teams, you can drive collaboration, forge strong connections, and promote teamwork in automatically created and maintained Teams for each course. Users gain practical experience using Copilot for M365 as they collaborate with others, share files, and work on learning together.

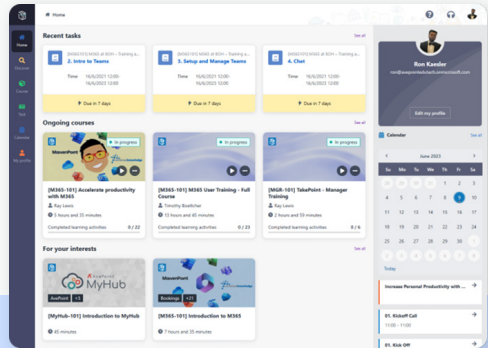

MAXIMIZE YOUR INVESTMENT

You invested in Copilot for M365, and now it's time to put them to work. With Curricula, you can seamlessly integrate learning, working, and collaborating in Microsoft 365 to boost your team's productivity and performance.

- **Full integration:** Curricula is not just an app in Microsoft Teams; it's completely integrated, including Viva Learning and Power BI, allowing employees to get the most out of their learning while you make the most out of tools like Copilot for M365.
- **Track adoption:** Track and measure your users' training progress in real-time, so you can see the results of your investment right away.
- **ROI delivered:** The comprehensive tracking and measurement tools help you understand your ROI, visualizing the impact training is having on your team's productivity and performance.

By using Curricula, businesses can help their teams achieve their full potential and maximize their Copilot for M365 investment like never before
