# Digital Learning & Course Management

*Modern, Easy to Use Learning Management System for Your Organization*

## Reduce IT Overhead of Online Course Delivery

Unified learning technology, build on the Microsoft Cloud, reduces IT overhead. Automatically create courses on Microsoft's Teams framework. Easily share messages, post notifications, and join online classes all within a familiar experience.

## Course Management at Scale, from Anywhere

Easily build and publish courses and lessons. Multiple learning objects that cover reference materials, quiz, file submission, and more. Deliver lessons to 10 students, or thousands with easily scalable and intuitive Microsoft cloud technology.

## Immersive Learning for Improved Student Engagement

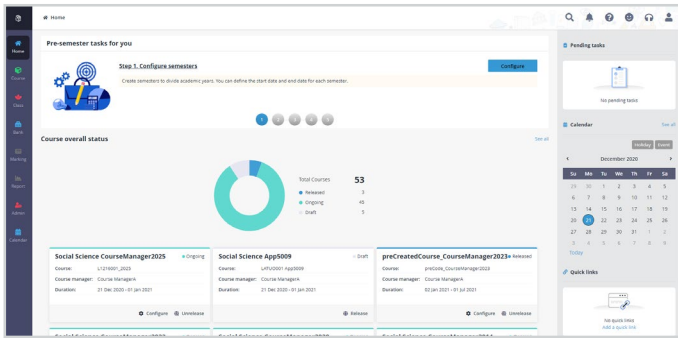

Students are guided through pre-class preparation, class participation, and post-class task tracking. Our handy Teams chatbot, Delphi, responds to common student questions about the course or lessons, anytime, anywhere.

## A Future-Proof Learning Management System

Today's 21st century students are digital natives. To keep up with the times and technologies, it is imperative your organization remains ahead of the curve. MaivenPoint understands and curates a smart-campus digital learning experience for students of today and tomorrow. Curricula is a future-proof solution that evolves with the latest, collaborative technologies. Leverage Microsoft Teams accessibility & usability to deliver a seamless and satisfying online learning journey for your organization.

# MaivenPoint Curricula for Digital Learning

## Curricula that Students Love:

- **Learning assistant Delphi.** Automatically post notification in Teams channel before classes start, and answer common student questions about courses, lessons, and tasks.
- **Centralized dashboard.** Quickly view future, in-progress, and completed courses, all alongside associated tasks, with clearly visible due-dates.
- **All-in-one calendar.** Keep track of your course schedule with keyword search and one-click navigation to the lesson you need.
- **Cover all bases.** Access and read all reference materials before class starts, take notes during the class, and submit your tasks after class from Curricula.

## Curricula that's Easy-To-Navigate for Lecturers:

- **Mark attendance.** Track students' attendance for each lesson with multiple choices such as present, absent, partially present, or late.
- **Timeline arrangement.** Modify the open or close time of quiz or other learning objects to fit into your schedule.
- **Access details.** View and check all the lessons or courses, then release the learning paths to students.
- **File sharing.** Staff work-bin provides a secure zone only for lecturers to share teaching materials.

## Curricula that Course Managers Trust:

- **Integration with Microsoft Teams.** Course, class, and lessons will be automatically created in Microsoft Teams – the collaboration tool of choice for modern enterprises. Teams facilitates learning, intercommunication, and sharing among lecturers and students.
- **Full-featured course management.** Manage enrollment, learning paths, your knowledge repository, tasks, and marking.
- **Learning objects.** Define specific learning objects required for each course including a sequence of learning tasks under a pre-set time duration.
- **Question & quiz bank.** Create quiz with multiple types of questions to measure and evaluate the achievements of your students.

## Curricula that's Welcomed by Administrators:

- **Build on Microsoft Cloud.** Leverage Microsoft collaboration technology to drive consistent user adoption and seamless learning experience.
- **Cloud technology.** Simplified system maintenance creates a common process for setting up, managing and provisioning of in-policy services for end-users (SaaS).
- **Reports provide deep insights.** Deliver actionable data analysis and trend reports to your school leadership.
- **Account security.** Assign users in your tenant to different roles with escalated level of permissions.

## Built to Strengthen Your Learning EcoSystem

- Our SaaS solutions are built to scale, and built to last. Our versatile interoperability stretches the learning experience within your familiar environment. MaivenPoint's digital learning solutions have been proven in some of the most advanced Institutes of Higher Learning. We take care of the tech, so you can focus on the teaching.
