## Learn Microsoft 365. On Microsoft 365.

Curricula's hands-on approach to learning allows individuals to explore and apply the tools and features of Microsoft 365 in real-world scenarios. With our platform, you can gain practical experience using these tools in a secure and controlled environment.

## Upskill Smarter, Not Harder

Personalized learning paths in Curricula enable you to customize the course content to suit your team's learning requirements. Learning paths offer a way to hand-pick and deliver lessons from our extensive content catalog to focus on the skills you need for any project, team, or role.

## Train Together, Grow Together

Take training beyond one-off live sessions or trying to 'bring the horse to water' with individual online content. With Curricula's interactive Learning Communities in Teams, you can drive collaboration, forge strong connections, and promote teamwork in automatically created and maintained Teams for each course. Users gain practical experience using Microsoft 365 tools as they collaborate with others, share files, and work on learning together.

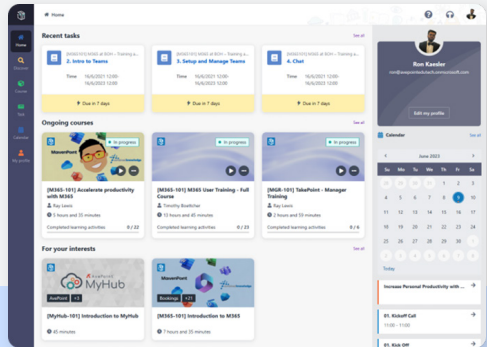

## MAXIMIZE YOUR INVESTMENT

You invested in Microsoft products, and now it's time to put them to work. With Curricula, you can seamlessly integrate learning, working, and collaborating in Microsoft 365 to boost your team's productivity and performance.

- **Full integration:** Curricula is not just an app in Microsoft Teams; it's completely integrated, including Viva Learning and Power BI, allowing employees to get the most out of their learning while you make the most out of Microsoft 365.
- **Track adoption:** Track and measure your users' progress in real-time, so you can see the results of your investment right away.
- **ROI delivered:** The comprehensive tracking and measurement tools help you understand your ROI, visualizing the impact training is having on your team's productivity and performance.

By using **Curricula**, businesses can help their teams achieve their full potential and maximize their Microsoft 365 investment like never before.
